RESIDENT CARE

— P R O D U C T S —

Group Activity Program

Creative Action's Memory Magic therapeutic program uses life-long habits and skills to promote long-term memory, reading, speak-

ing, social interaction, positive emotions, and fine and gross motor skills. The program can reduce disruptive behavior while engaging groups of 10 to 20 residents for up to one hour. Each Memory Magic set includes 10 therapy boards, 40 card inserts, and 240 calling cards for the activity leader, all of which can be sanitized.
